

Measuring CHART

1. **NECK**--- measure around the neck, comfortable fit, not tight.
2. **WIDTH of BACK**---measure from top of shoulder straight across to other shoulder.
3. **ARMS**---measure from top of shoulder to 1" below wrist bone.
4. **SLEEVE**---from bone at the base of neck across the top of shoulder down outside of arm to 1" below bone on wrist. Arms should be hanging at your side, **NOT** outstretched or bent.
5. **WAIST**---measure all the way around biggest part of belly. (approx. at belly button)
6. **CHEST**---place tape under the armpits, measure around fullest part of chest in front and make sure tape is across the shoulder blades in the back. Arms should be hanging at your sides, and your chest should be relaxed. Breathe normally.
7. **HIP**---Measure around the largest part of hips and buttocks.
8. **THIGH**---largest part of upper leg. (approximately 4" from crotch)
9. **CALF**---largest part of lower leg.
10. **INSEAM**---have your trousers pulled up the way you want your suit to fit. Hold tape up as high in in crotch possible and measure down where the sole meets the heel on your shoe.
11. **OUTSEAM**---from waistline on side to where heel meets the sole of shoe.
12. **CENTER BACK**---measure from neck-bone down to waistline.
13. **TRUNK**---starting at top of shoulder next to neck, measure down back, around crotch, and back up across stomach, chest and return to where you started on the shoulder.

14. Height

15. Weight

DO NOT measure yourself. Have someone help you.
DO NOT add anything to your measurements.
 Patterns have built-in ease.
